- OBJECTIVE** To expand on my experience and continue to grow my skillset in project management, project estimating, sales, and technical knowledge in the mechanical contracting and HVAC industry.
- EXPERIENCE**
- Project Estimator* February 2022-Present  
ABM, Alpharetta, GA
- Scouting, estimating, and presenting mechanical contracting projects and maintenance agreements to commercial and industrial customers.
  - Experience in designing and sizing HVAC systems and equipment for a wide variety of applications.
  - In addition to core business, also assisted in selling other ABM units such as electrical, EV charging, and janitorial.
- Assistant Project Manager* February 2020-February 2022  
Maxair Mechanical, Marietta, GA
- Selling, estimating, and managing mechanical contracting project as part of Direct for Owner (DFO) team.
  - Primarily selling and running jobs directly for end clients, where Maxair is the general contractor.
  - Responsible for managing projects from pre-construction to completion.
  - Coordination of all parts of the job including equipment, labor, subcontractors, scheduling, permitting, and startup.
  - Experience in working with contractors, clients, engineers, and manufacturers.
- Technical Engineering Sales Support* May 2015-February 2020  
James M. Pleasants Co., Peachtree Corners, GA
- Duties included sizing hydronic equipment for engineers, and performing mechanical takeoffs and quotes for contractors.
  - Responsible for assembling and pricing the majority of design build and plan and spec projects for Georgia territory.
  - Scope of successful proposals ranged up to several million dollars worth of material.
- EDUCATION**
- B.Sc., Mechanical Engineering* May 2015  
Virginia Tech, Blacksburg, VA
- Designed, constructed, and tested a portable dental chair as part of a senior design group project, coordinating with the University at Buffalo School of Dental Medicine's community outreach program.
